

MT-150XL Blister Packaging & Sealing Machine

A Made-in-USA midsize blister packaging machine for small-to-medium batch production in pharmaceutical, nutraceutical, cosmetic, and related applications.

BEST FOR

Small-to-medium batch production that needs a compact but robust blister line.

SPECIFICATIONS

Machine dimensions	4153 mm × 1092.2 mm × 2248 mm (L × W × H)
Machine weight	636 kg
Forming area	150 mm × 150 mm
Maximum forming depth	19 mm
Maximum web width	160 mm
Machine speed	5–35 cycles per minute, depending on product characteristics
Electrical requirements	220 VAC, 3 phase at 25 amps
Air consumption	12–16 CFM based on 20 cycles per minute

SUPPORTED APPLICATIONS

- Pharmaceutical tablets and capsules
- Nutraceutical products
- Liquids and powders
- Medical devices and gummies

CAPABILITIES AND OPTIONS

- Thermoforming and cold forming
- Forming, filling, sealing, perforating, and cutting
- Manual or automatic filling options
- Printing options for variable package information
- Quick product changeovers

Specifications are application-dependent and must be confirmed in Mactec's proposal. Output depends on the product, package and selected configuration.
