

MT Table Top Blister Machine & Sealer

A compact table top blister machine and sealer with digital heat and timer controls plus removable seal-die options for low-volume packaging work.

BEST FOR

Low-volume blister sealing, package development, laboratory work, and manual production.

SPECIFICATIONS

Machine dimensions	304 mm × 355 mm × 247 mm (L × W × H)
Machine weight	Approximately 34 kg
Machine speed	1–10 cycles per minute
Electrical requirements	650 watts, 110 VAC, 50/60 Hz
Air consumption	2–3 CFM
Main air pressure	30–90 PSI
Timer	Koyo digital timer

SUPPORTED APPLICATIONS

- Laboratory and package-development work
- Small production runs
- Multiple blister formats with removable seal dies

CAPABILITIES AND OPTIONS

- Digital heat controller
- Digital timer
- Tool-less change parts
- Multiple removable seal-die options

Specifications are application-dependent and must be confirmed in Mactec's proposal. Output depends on the product, package and selected configuration.
