

MTVP200 Vertical Pouch Packaging Machine

A larger-format vertical form-fill-seal machine for sachets and unit-dose pouches that need additional web width or lane capacity.

BEST FOR

Larger pouch formats and multi-lane production requiring up to approximately 200 mm web width.

SPECIFICATIONS

Machine dimensions	1219 mm × 1524 mm × 1828 mm (L × W × H)
Machine weight	Approximately 385 kg
Forming area	Approximately 140 mm × 200 mm
Maximum web width	Approximately 200 mm
Machine speed	10–35 cycles per minute, depending on product and automation
Electrical requirements	110 VAC at 15 amps
Air consumption	12–16 CFM based on 20 cycles per minute

SUPPORTED APPLICATIONS

- Pharmaceutical and nutraceutical sachets
- Liquids and powders
- Tablets and capsules
- Multi-lane sample and unit-dose pouches

CAPABILITIES AND OPTIONS

- Forming, filling, sealing, perforating, and cutting
- Automatic product filling
- Multi-lane configurations
- Registration for preprinted material
- Four-sided seals and variable-data printing options

Specifications are application-dependent and must be confirmed in Mactec's proposal. Output depends on the product, package and selected configuration.
