### The Packaging and Processing Event That Has it ALL

To keep up with the changes in the last year and the ever-evolving consumer demands, you need to experience the latest innovations that can drive your business forward. At **PACK EXPO Las Vegas and Healthcare Packaging EXPO** you get the invaluable opportunity to see technology upfront and ask questions right on the spot. No other event in 2021 will bring together a more comprehensive gathering of packaging and processing suppliers, ideas and industry professionals.

- **Stay on top of advances in packaging**, automation, robotics, printing, sustainability, packaging materials, etc. – no event in the world this year offers more solutions!
- **Talk directly with the experts** behind game-changing technologies to discuss applications to your business.
- **Examine technology in action**, open up the control panels and see how it really functions, allowing you to determine the best solutions for your production line.
- **Get ideas from other industries**, such as crossovers between food and pharma or cosmetics and household chemicals.
- **Strengthen your connections with suppliers**, get feedback from experts and broaden your network of peers, face to face.
